SHB-PACKAGING
Stolle Health and Beauty

SHB GmbH is a family-owned company, founded in 1991, and fully committed to the development and marketing of plastic articles.

Our customers can select his packaging from a range of over 120 bottle series and more than 70 different closures – and because of the modular system, hundreds of combinations have now become possible.

Through our global network we remain constantly in contact with our customers worldwide, and as a result of this close collaboration, many new ideas emerge which give birth to many new standard items.

Our team consists of 40 staff in our Crailsheim Headquarters, and is now led in the second generation by son and daughter. The company therewith remained privately owned.

In 2021 we were celebrating our 30th anniversary and we look with confident into the future.

A highly important aspect that we take very seriously is closeness to the customer, our customers goals must be our goals too!

This has been our motto for more than 30 years, and only by following this principle we can continue to succeed in the highly competitive marketplace.

We like to thank all of our customers, supply partners and business associates for their trust and loyalty and look forward to our continuing partnership!
